INTRODUCTION

The soil information workflow developed by ISRIC-World Soil Information categorizes the steps to collect soil data and provide information products and services based on soil knowledge and auxiliary data across various domains to help users in setting up soil information system on a national level.
USE OF THE SOIL INFORMATION WORKFLOW GRAPHICS

Entities other than ISRIC-World Soil Information are allowed to use the Soil Information Workflow graphics as long as they adhere to the requirements highlighted in this document.

The Soil Information Workflow graphics are available for informational purposes. It is not necessary to obtain permission from ISRIC before using them for this purpose. However, if the graphics are being used for any other reason, contacting ISRIC to obtain permission is required.

Please use one of the following image captions on all online/printed materials:
